Second Term 2025

As we completed the second term, we looked back on an eventful and fulfilling few months filled with growth, achievement, and exciting school activities. One of the highlights of the term was the Infant Section Sports Meet, which took place over two days. This new structure proved to be a great success, allowing all students to actively participate and enjoy the events to the fullest. Their enthusiasm, sportsmanship, and determination were truly commendable, making it a memorable experience for everyone involved.

Sports Days

Work together!

Nursery Water Play – A Splashing Success!

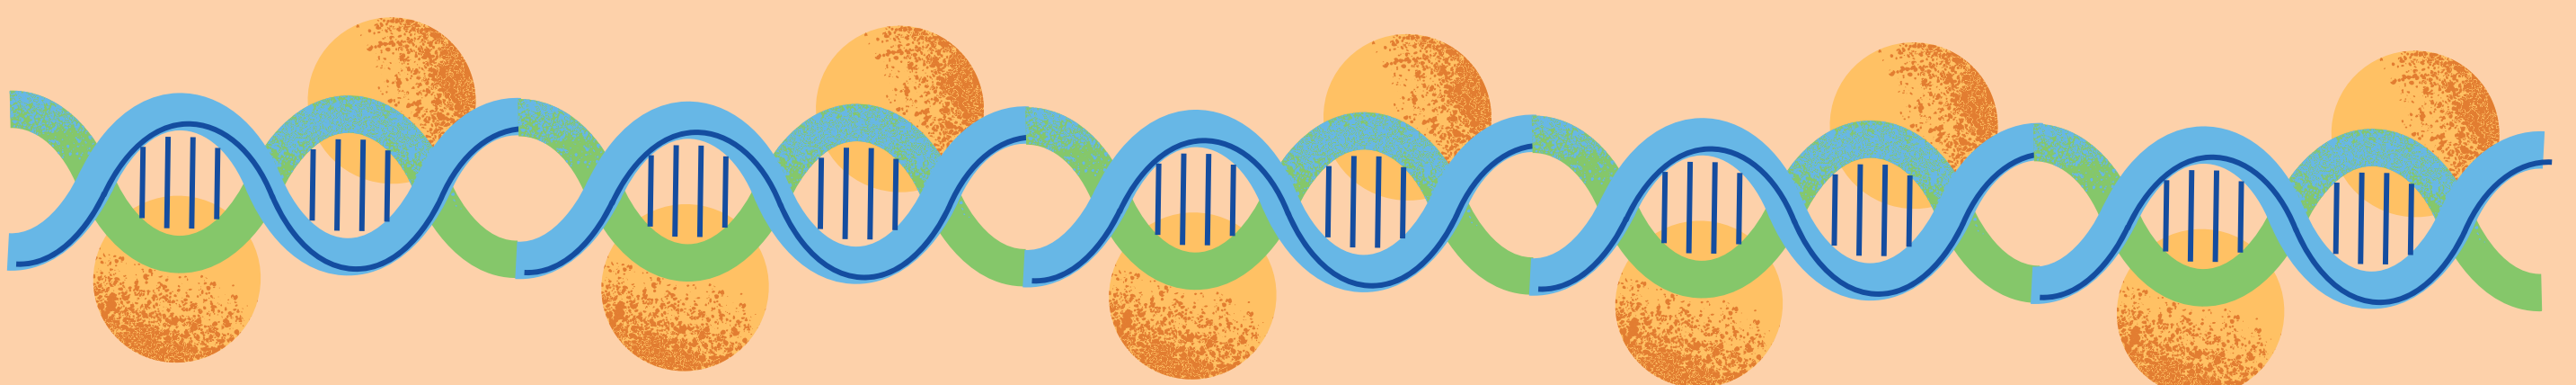

On the 7th of March, our Nursery students had an exciting and refreshing Water Play Day! It was a delightful experience as the little ones explored water through various fun activities, from splashing and pouring to floating and sinking experiments. The session not only brought immense joy but also helped develop their sensory skills and coordination. Seeing their laughter and excitement made the day truly special!

Exciting STEM Activities

Our young learners engaged in exciting STEM activities that sparked their curiosity and creativity. From simple science experiments to hands-on problem-solving tasks, students explored the wonders of science, technology, engineering, and maths in an interactive and engaging way. These activities encouraged critical thinking and teamwork, making learning both fun and meaningful!

Fun-Filled Everyday Lessons

Learning in our Infant Section is always an exciting adventure! Each day, students engage in interactive and hands-on lessons that make learning enjoyable and meaningful. Whether it's storytelling sessions that spark imagination, creative art activities that bring out their inner artists, or engaging maths and literacy games that build essential skills, every lesson is designed to be both educational and fun. The enthusiasm and joy seen in the classrooms truly reflect the vibrant learning environment we strive to create!

We ended our term with the Avurudu celebrations on 4th April, where students enthusiastically took part in traditional games and activities, embracing the festive spirit. It was a wonderful way to conclude the term.

The 3rd Term will commence on the 23rd April 2025.

We look forward to welcoming our students back to school.
